### **Perspective Plan**

Pune District Education Association Law College takes immense honour to present the self-study report to the National Assessment and Accreditation Council, Bangalore, for its first accreditation cycle. This executive summary is a preliminary account of our self-study report. Our journey right from the establishment up to date is reflected in this report. This summary serves as our self-study report's introduction. It displays the "Pune District Education Association Law College" journey thus far, including its foundation, our understanding of legal education in light of our goals and objectives, and our attempts to transform legal education into reality by tackling interdisciplinary problems like gender disparity, empowerment of underrepresented groups, inclusivity, and other topics through extracurricular and co-curricular activities.

### **Introduction**

The Pune District Education Association's Law College was established under the aegis of the Pune District Education Association Trust in July 2002. The college is affiliated with Savitribai Phule Pune University and approved by the Bar Council of India.

The college conducts BALLB (5-year programme) and LLB (3-year programme) together with 3 diploma courses, namely, Labour Law and Labour Welfare, Taxation Laws, and Cyber Laws. The college was first located in Kharadi and then shifted to the Hadapsar campus to impart quality legal

education to the students residing in semi-urban and rural areas. The purpose of this institution is to impart justice education along with human values.

The Institute's primary goal is the holistic development of its students through the teaching of university curricula, moral principles, and a sense of social responsibility. The Institute has started the Students' Welfare Cell, the Legal Aid Centre, the National Service Scheme (NSS) section, etc. in order to address these concerns. Since a multidisciplinary approach is necessary for the law to be fully understood and applied effectively, the Institute encourages students to organise, carry out, and participate in programmes that promote legal literacy and awareness.

Students are most likely to be interested in the nuances of legal processes; thus, the Institute arranges field trips to places of legal importance such as the District Court, High Court, Supreme Court, Yerwada Jail, and Lok Adalats. In the brief time since its founding, the Institute has left a mark in the legal field. The Institute has been dedicated to maintaining the great tradition of excellence with fire, zest, and vigour since its inception.

### **Vision**

A generation of students with the intellectual prowess, moral awareness, and social duty to uphold the Rule of Law not only locally but also globally is what Pune District Education Association Law College strives to cultivate, develop, and build. It is our responsibility to provide an example for integrating the rule of law into society and to eradicate any prejudice based on a person's identity, property, or community, as we strive to be the leaders in legal professional education.

The College endeavours to serve as a training ground for future judges, legislators, and public servants who will be a part of the governing class and who will play a major role in making and imparting decisions. We work diligently to help our students become the best at everything they do constructively and to develop into experts who will leave their mark in the legal field.

### **Mission**

- To promote the Rule of Law and the objectives outlined in the Indian Constitution by instilling moral, legal, and cultural principles.

- To increase community awareness of the law in order to achieve greater social and economic justice.
- To incorporate essential elements of practical training with high-quality theoretical education.
- To inculcate a strong sense of moral and ethical principles in order to help students become decent people and responsible citizens.
- To be an academic institution providing an impetus to socially underprivileged students for perseverance in the competitive world.
- To transform individuals into enthusiastic legal professionals.
- To educate and enlighten the masses by spreading the light of education in semi-urban and rural areas.
- To enable students to develop professional skills and ethical grounding to transform into excellent lawyers, judges, and academicians.
- To promote knowledge and understanding of the law and related fields.

The faculty at the college is highly qualified and well-informed. The institution will offer research facilities and resources to faculty and students to improve their competence and aptitude for research. The Institute intends to launch the following courses in the near future:

- LLM department and research hub by FY 2024–25.
- B.A.LLB by the year 2025–26.
- Diploma in Intellectual Property Laws in 2024–25

The college offers learning opportunities through hosting lectures and talks by illustrious individuals and legal luminaries for research scholars, facilities, and students in order to provide pupils with the most recent information and advancement in the area.

To keep up with modern technological advancements, the Institute provides modern ICT tools to teachers and students, like smart classrooms, legal research software, a digital library, free Wi-Fi facilities, online lectures by eminent scholars in the law field, etc. The college intends to provide world-class infrastructure for the students so as to enable them to become global citizens. The college wants to help economically backward students through the Earn & Learn Scheme.

The Institute wants its students to participate in training courses run by the District Legal Service Authority and College to become paralegal volunteers. By making frequent trips to the district jail, the paralegal volunteers are also

providing their services to detainees awaiting trial and other prisoners. Students will receive training for that from the college. Through a legal assistance camp and a legal aid service clinic, the college will concentrate on expanding its legal help, particularly to rural and tribal region inhabitants.
